

Optimum protection for tableting punches

Packaging concept for tableting punches with TwistLock closure technique

- the sensitive tip of the tablet punch is suspended for optimum protection
- highly secure bayonet-type twist lock closure, requires minimal force in opening and closing the pack
- contoured tube ends and lateral grooves provide protection for the punch
- ergonomic product design offers shape stability
- easy handling
- excellent for stacking and storage
- durable and re-usable
- two sizes accommodate the most common tablet designs
- matching die tubes to go along with tablet punch tubes

Packing

- outer parts and inner parts are packed separately

Raw material

- Polyvinylchloride (PVC)
- Polyethylene (PE)

Product range

- PVC clear, PE natural or in various attractive standard colours or two-coloured

Production environment

- industrial standard

Article	Description	Length (mm)	Head-Ø (mm)	Shaft-Ø (mm)	Pack. Unit
